Chapter 797 Meeting

Saturday June 28th, 2014

The monthly meeting (on the last Saturday) will be held at the Suwannee County Airport at our EAA Chapter Building at approx. **10:00AM**. Pot Luck Brunch will come before the meeting.

EAA 797 Morning Fly-In

The LAST Saturday of the month

June 28th

Free coffee and doughnuts

8:00-10:00 AM

PRESIDENT'S MESSAGE

Maybe Chicken Little Was Right After All!!!

Allen Rice

If you are over 40 years old, I'm sure that you remember the story of Chicken Little, AKA "Henny Penny". It turns out that this fable of impending doom is centuries old and has been responsible for fostering paranoia in people around the world or encouraging people to be brave and think for themselves, depending on your interpretation. While some individuals such as Walt Disney have produced animated flicks of Chicken Little as part of the war effort to reassure the American public to be strong against the Nazis, others continue to this day to spread fear. I don't want to admit that I'm a little paranoid but I don't know what to believe anymore.

I never was one to accept conspiracies but maybe I should reconsider. After all, most can be found on the Internet repeated over and over again. For me, this all started about 2 years ago while building my house. One day the construction foreman came up to me and between puffs on his electronic vapor cigarette, he told me to look up and notice the trails behind the high flying jets overhead. He asked me what I thought they were. I answered naively that they were contrails from the jets. "No", he retorted, "Those trails are called 'chemtrails'". He went on to explain that the U.S. government is secretly conducting high altitude

Continued on pg. 4

MAY MEETING

- 16 members present
- Treasurer's Report shows balance of \$12,768.98 as of April 30, 2014.
- Composites Seminar in May had 5 members attending.
- Movie Night at Ray and Fran Anderson's house in The Trails Airpark, June 14.
- Allen Rice is looking to members to help with programs for our meetings. If you have an idea for a program, want to give a program or know someone who would be willing to give a program, please let Allen Rice know.
- Allen will email the info about Aviation Camps to all members. Will still need to choose a young person interested in attending.
- Next meeting on June 28. We will go back to a Pot Luck Brunch. The program will be on Air Life 7, the new helicopter operation at Live Oak airport.

May Meeting Barbeque

Fly Out Report

6/21/2014

Skies were clear and winds were calm for the Saturday morning breakfast fly out to Ocala on June 21. Allen & Bobbi Rice made the trip from Ancient Oaks Airpark in Steinhatchee in their Comanche while Ray Anderson flew his new Maule down from the Trails Airpark in Luraville. Thyme Fly's Bistro in Landmark Aviation served up some delicious fried French toast, pancakes, eggs, and sausage for the 3 hungry flyers. Following some great conversation, the return trip north at 10:30AM was just as delightful as the flight down.

Ocala is one of the easiest towered airports with only one runway (18/36) and one taxiway (Alpha) so directions are easily understood and repeated. Additionally, the controllers are always helpful. For pilots who are hesitant to fly into a controlled field, Ocala would be a good place to practice.

PRESIDENT'S MESSAGE CONTINUED

chemical spraying to destroy all the farm crops in the U.S. When I asked him why the government would do that, he answered "So that they can control us and make us dependent on them". Hmmm. I said "Seems to me that the government already has 50% of Americans dependent on them, why would they want anymore?" He mumbled something and walked away.

Fast forward to last week when my 16 year old grandson spied some contrails and informed me that most of the students at his high school believe that they are really chemtrails courtesy of the government. So I looked up 'Chemtrails' on the internet and was amazed at all the websites attesting to the fact that yep, the government is hosing all of us down to control us. Fortunately, I found another site that explains that one can use an 'Orgone Generator' to vacuum up all the bad poisons that the government is dropping on us. Thank goodness for that.

Now that the fears that I incurred from my construction foreman have been substantiated by 3000 high school students, I am rapidly sinking into a permanent state of despair. I can't stop reading the online stories of 'bioelectrification', 'forbidden cures', 'preventing alien/demonic attacks' and watching TV shows featuring 'doomsday survivalists'. Furthermore, I no longer believe in Snopes.com, you know the website that supposedly debunks urban myths. After all, they say that Snopes.com is controlled by the government.

Anyway, while I wait for UPS to bring my Orgone Generator, I think that I'll just tough it out and self-medicate my paranoia with an adult beverage while I watch Disney's 'Chicken Little' for a hidden message that will help me survive. Maybe if I play the DVD backwards.....
